

About DriveTime

DriveTime is a unique company that is unlike your typical auto dealer. We are different than other dealers because we don't avoid selling used cars to people with poor credit, but instead we specialize in that area. We make this possible by doing 99% of our own financing for our customers. This enables us to consider financial aspects that a normal bank or lender would not even look at. All of our Los Angeles DriveTime stores offer financing on the purchase of your used car and we can almost guarantee that you will be approved!

When it comes to buying a car every dealer around is throwing out phrases like, "We can work with your credit", "Bad credit, no credit, no problem!", "No credit application will be refused"; the list seems to go on forever. But what these slogans don't tell you is that they just want to force you into a deal and hand your loan off to some other company and treat you like dirt. Well thanks to DriveTime, you don't have to deal with those other dealerships anymore. DriveTime is built on treating our customers like family, and showing you the respect you deserve. We do not push you away because you have had a history of poor credit, but instead we encourage you to make your future financial situation better by selecting a vehicle that fits your lifestyle.

With several different locations carrying used cars, Los Angeles DriveTime has a nice selection of high quality vehicles to offer our customers. We think its important to mention that our cars go through a 53-point inspection before they even arrive on our lots and that each car comes with a standard DriveCare® Limited Warranty because we know how important quality is to our customers. Each used car that our Los Angeles DriveTime locations sell is of the highest quality and our customers can have comfort knowing their vehicle is safe and reliable.
